There will be upon the stage two glass wheels, the contents of which can be seen by all the spectators. A committee of two citizens, in no way contents be seen.

A roung herse; works well A roung herse; works well an apagement, and of modes here to the citizens. management, and of undoubted integrity, having first counted and examined, will place | kind and gent e. Apply at once to NEW CATALOGUE AND PRICE LIST, in the larger wheel 12,600 Tickets, exactly alike, and having rinted numbers from one to 12,500, corresponding to all the tickets sold. A similar committee, having this commit a state examined, will place in tubes precisely alike the prizes, which are placed in the small a wheel. Both wheels will then be turned until their contents are thoroughly mixed. A boy under fifteen years, blindfolded, will then draw from the conditions of the land. The populous and wealthy parts of the island will be and wealthy parts of the island will be preserved from its ravages and the populous and the populous and the populous and the populous to star actions and additors, its number will then be passed to the committee of citizens, who will say whether the number has been rightly called. It will then be passed 6th distance and this st., New York. to a register, who will file it, and record it upon a book prepared for that purpose. A boy of similar age will then draw from the smaller wheel one of the tubes containing a prize, which will be opened and help up to the view of the spectators and auditors. The value of the Real Estate prize will then be cried, and passed to the committee, who, after inspection, will give it to another register to file and record. The prize thus drawn will belong to the ticket bearing the number drawn immediately before it. Thus this public.

To the of time a favorite with the traveling process will continue drawing first from the large wheel containing the tickets, and

To the of time as of the house the condist hen from the small or prize wheel, until all the tubes containing the prizes are drawn.

An accurate record of the above will be kept on file, certified to by the committee of base not hither to revised it with their parton. lisi derested ci izens chiciating. The prizes below Three Hundred Dollars in value are Approximations, and while trust a rangement is convenient betermined and paid as follows: The numbers of all the tarkets to d being considered determined and paid as follows: The numbers of all the tarkets to d being considered determines. The rabe is supplied with the n a circle, humericerly formed, and having the highest number, 12,600, and the best that the Wilmington market witerles, and

lowest, 1, brought topether, then whatever number in this circle may be by lot, determined to be entitled to the Capital Prize of \$25,000 will be taken as a centre, on each side of which the next Three Hundred numbers in numerical order will be counted for the ten dellar prizes, thus making on the two sides of the Capital the Six

A BAR with first class Liquors, is also an each side of which the next Three Hundred numbers in numerical order will be taken as a centre, on each side of which the next Three Hundred numbers in numerical order will be taken as a centre, on each side of which the next Three Hundred numbers in numerical order will be taken as a centre, on each side of which the next Three Hundred numbers in numerical order will be taken as a centre, on each side of which the next Three Hundred numbers in numerical order will be taken as a centre, on each side of which the next Three Hundred numbers in numerical order will be taken as a centre, or each side of which the next Three Hundred numbers in numerical order will be the Proprietor.

The proprietor of the ten dellar prize of the Capital the Six march 13. fundred nearest numbers, each of which will be entitled to a Real Es ate Prize of Ten bollars All the tickets drawing larger prizes will be excluded, and the circle extended include Six Humaned on both sides of the Capital, being Three Hundred on each side, it being the purpose of the management not to puplicate prizes. Money .-- We money received from sales of Tickets will be deposited in bank imdialely on receipt of remittances. Transfer of Titles .- Within ten days after the drawing, parties putting fal Estate on the market unner this Science, are required to make good, valid and to remine ed tales thereto to the Greatera Real. Estate and Immoration Com-ANY-said Company obligating themselves to transfer such Time in fee-simple to the

oarly or parcies who may may such prizes of Real Estate. Tickets can be had on application, personally or by letter, to authorized Agents. JAMES CARDNER. FONVIELLE'S

THE RESULT OF MY CWN EXPERIMENTS, AND THAT OF MANY FARMERS IN Eastern North Caronina, prove incostestably that the SIMPSON COTTON SEED is the most profile of the several excellent varieties which claim the attention of the planter.

On my plant comin One of county, N. C., I have carefully tested the qualities of different varieties of Cetton Seed, among them the Dickson, obtained directly, at a high price, and with greatly improved results. In 1872 I procured, directly from Mr. W. Simpson, of Georgia, a quantity of his seed, and with no more manufing that yest and the pirsent, I have realized an increased yield of from one fourth to one-third from my general crop, and one small patch of two and one-half acres yielded Nime Hundred Pounds of Lint Cotton per Acre.

Lem now prepared to offer planters Seed, for white I count the onlowing. I am now prepared to offer planters Seed, for which I carm the following:

14. Paving been obtained originally from pure Simps a Seed, by careful selection and cultivation they have certainly not degenerated.

21. The t I plant but this variety and none other, and dis My own cotton, and in every way

Fig. 1. The unmand the initity of the seed.

Su. I shall sell no seed except select seed of the first product of selected seed.

4th. The seed offered for sale will make one-fourth more than mixed seed, and one-half more. than the common Cotton, ALL THINGS EQUAL.

The above seed can be bought for Cash only at the following rates: Ten bushe's or over, \$1.50 per bushe!; under ten bushels, \$2. They will be sacked and marked as directed, and Bills of Lating taken and sent to jurchaser. They may be ordered directly from myself or from Agents—Messis, Edwards & Hall. Wilmington and Tar Landing, Unslow county, N. C., or Messis, Faison & Hicks, at Faison's Depot, Duplin county, N. C.

EDWARD W. FON VIELLE, Jacksonville, Unslow county, N. C. From many testimonials faverable to my Seed, I and the following, by gentlemen well known is planters of in elligence and character, equal to any in North Carolina: "We certify that we are generally acquainted with the most prolific and best cotton p'anted in our section of the State, and we unhestacingly say the SIMPSON COTTON SEED, raised and sold to as last Spring by Col. E. W. Fonvielle, is the best and most prolific cotton we have ever planted or ever saw grow."

W S Lorms. FAISON, N. C., November 8th, 1873. Col. FORVIELLE—Dear Sir: Your letter, owing to its delay, came to hand several days too late. I cannot give a statement of difference of Dickson and Simpson Cotton. I did not weigh all the Dickson Gotton, but am satisfied that the Simpson made fully one fifth more than the all the Dickson Cotton, but am satisfied that the Simpson made (erry the latter in Dickson. I made on the one and-s-half acre of Simpson 2 400 pounds of Seed (of on. It rainer so much, and other circumstances, made it inconvenient to weigh the Dickson and Pealer.

Vonis truly,

I.R. FAISON.

RICHLANDS, Onslow county N. C., Jenuary 5th, 1874.

E. W. Fenvielle - Dear Sir: I must confess until the past season that I thought the difference in Cotton Sird was in land cultivation and manure. I tri-d the Simpson Seed in a field near my mill, thanting two rows with your Seed and four rows of my Seed which was the common cotton. I did not pack and weigh as you requested, but I give it as my opinion that the two rows planted with your Seed made as much as the tour planted with my Seed. The balance of crop idented in your Seed done equally as well. The two and four rows were all manured and cultivated equal throughout the field.

Yeurs &c., F. Tel MPSON.

(From the "Southern Cultivator." December No. 1870 1 The opinion of Col. Wm. F. Roberts, a Planter of South Carolina, on various kinds of Cotton *The Polmes variety kept who a lof the Dickton varieties, (Sparta Oxford, Simcon and Hunt) 'The Polmes variet, kert shealof the Dickson varieties, (Spart Coxes a similar and Hent) in growth. It was nestalk to the hill 4 feet rows; all the inix on viril 1 swere 2. Sand 4 staks to the hill 6,7 and 10 metes stat. Holmes is the best branch station 1 ever saw, but not thickly belied like the millimg cotton. The two Dickson's both branchime, and the staks only about two-thirds the height of Kolmes. Simpson, in the same hill coatch of 9 a res, is more profife uniformly, than so other or the Dickson varieties. Everyone who has seen my litnature begged for a few of the Simpson-from 1 peck to 1 bus el of See t.

Mr. Sparta Dickson has evidently managed to dwarf his stalks and increase the learing. Simpson though more uniformly prolific. It is to be hoped, for the public herealt. Simpson's Pro-
